

EU REACH – Supplier Response Sheet – September 21, 2011

1. We confirm that the articles supplied to you will be pre-registered by us, with the exception of those listed in section 3 below.
2. The following substances are likely to be substances of very high concern within the meaning of REACH:

Our analysis indicates that we sell no articles that exceed the notification limits of REACH as of this date.

We are in the process of querying our suppliers to build the informational database.

3. The following substances, preparations or articles will **NOT** be included in the Pre-Registration phase:

We do not procure, manufacture or provide you with products that meet or exceed the REACH initiative of 1 ton threshold. We are not pre-registering with REACH at this time.

4. We can confirm that your use will be included in those EU REACH Registrations we make, in relation to the articles currently supplied to you.

5. Please address further inquiries to techbox@automationdirect.com
