

Dear Valued Customer,

Halex has conducted due diligence to verify the REACH and RoHS compliance of the components it distributes. Based on the information available as of **July 28, 2025**, all products currently distributed by Halex are compliant with REACH and RoHS regulations, **with the exception of the parts listed in the table below.**

This conclusion is supported by a comprehensive review of material specifications and confirmation from our suppliers. Given that Halex sources products from multiple suppliers, specific compliance documentation is available upon request to support individual product inquiries.

Thanks,

David McElveen

Sr. Director of Engineering and Operations
