

RoHS

To whom it may concern,

KNIPEX is familiar with the European Directives and their scope. The EU Directive for Restriction of Hazardous Substances (RoHS) 2011/65/EU and its amendments, including RoHS III (2015/863/EU), are intended to limit the use of certain hazardous substances in electrical and electronic equipment. The RoHS directive is only applicable to the following KNIPEX products, which are conform with the RoHS directive. All other KNIPEX products are not within the scope of the directive, and therefore the RoHS does not apply.

KNIPEX 97 43 E including battery chargers
KNIPEX 00 11 V50
KNIPEX 97 52 63 DG
KNIPEX 97 52 65 DG
KNIPEX 97 52 65 DG A

We can confirm that none of the substances listed below, which are subject to restrictions under the RoHS Directive, are intentionally added in the manufacturing process or as raw materials in KNIPEX products:

- Cadmium (Cd) (CAS: 7440-43-9)
- Mercury (Hg) (CAS: 7439-97-6)
- Poly Brominated Biphenyls (PBB)
- Poly Brominated Diphenyl ethers (PBDE)
- Bis(2-ethylhexyl) phthalate (DEHP) (CAS: 117-81-7)
- Benzyl butyl phthalate (BBP) (CAS: 85-68-7)
- Dibutyl phthalate (DBP) (CAS: 84-74-2)
- Diisobutyl phthalate (DIBP) (CAS: 84-69-5)

The presence of the a.m. substances can therefore be excluded.

Please note that this information represents our current state of knowledge. Ubiquitous traces cannot be excluded.

Kind regards,

KNIPEX-Werk

i.A.
