

RoHS – Declaration

RoHS – This acronym stands for “Restriction of the use of certain hazardous substances”. It is about an EG-Regulation directing the use defined hazardous substances in electrical- and electronic products.

The regulation 2011/65/EU was put in national legislation on January 2, 2013 and compensated the regulation 2002/95/EG effective from January 3, 2012. The new edition of RoHS covers identical substances and limit values. Among some other things only the scope will be changed step by step. In addition, compliance with the RoHS Directive is a prerequisite for affixing the CE mark to the equipment concerned. By the Delegated Directive (EU) 2015/863 has been added four further substances into the list on June 4, 2015. The ten substances in all are as follows:

- Lead (Pb)
- Cadmium (Cd)
- Mercury (Hg)
- Hexavalent Chromium
- Polybromed Biphenyls (PBB)
- Polybromed Diphenyleters (PBDE)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Butyl benzyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

Legislation is aiming for reduction of detrimental effects for humans and environment as well as for improvements in possibilities for recycling.

The Murrplastik products listed below are compliant in terms of this directive.
