Dear Customer,

As part of the manufacturer's sustainable development policy, they are working to reduce the use of RoHS banned substances throughout our product offering. The information below provides the current product status as of the date of publication of this present document.

All products are in compliance with Directive 2011/65/EU (RoHS 2) of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment including Directive 2015/863/EU (RoHS 3) additions

Any future changes to the Directive or the list of exemptions may change the status reported here.

In the context of the sustainable development policy of our manufacturer they continuously work towards products and services which reduce the impact on environment or human health when used for their intended purpose and in conditions stated in the documentation provided.

At end of life, we recommend that you follow appropriate waste and recycling procedures.

These products are released, designed and implemented to comply with the RoHS Directives listed above.
