

Connecting Encoders to the D2-CTRINT

Product group: 205 series
 Information Type: High speed input/ D2-CTRINT
 Last revised : 10 Nov, 1999

Input Specifications	Inputs: 4 points, current sourcing, 5KHz Maximum Min Pulse Width: 100 micro sec. Input Voltage: 12 or 24 VDC +/- 15%
Output Specifications	Outputs: 2 points, current sinking, 5KHz Maximum External Power Supply Requirements : 5VDC +/- 10% Output Voltage Range: 5VDC +/- 10% Maximum load current : 30 mA
